ABOUT US

Sabeel Services is a single window logistic solutions provider. Our vision is to be the most preferred and competitive logistics solution provider to our customers. At Sabeel Services, we have the power to move any type of cargo, the agility to adapt and the technology to keep it simple. With an extensive fleet of trucks and trailers, comprehensive warehousing and distribution capabilities, and automated logistics management systems, we are ideally deployed to help our customers build their bottom lines. And every day, we work hard to earn their business. With the development of the Fleet Size & extensive Driver Training on Road Safety & fleet Management, we will pay more attention to the environment protection, cost saving, our customers continuously to establish a prosperous future.

OUR CAPABILITIES

We offer a comprehensive suite of services designed to support every aspect of the supply chain. From international freight forwarding by air, sea, and land, to customs clearance, warehousing, distribution, and last-mile delivery, we manage each step with the utmost care and professionalism. Whether it's managing high-volume shipments or handling complex project cargo, our expert team ensures that every consignment is delivered on time, intact, and in compliance with all regulatory requirements. Our warehousing facilities are equipped with modern inventory management systems that allow for real-time tracking, secure storage, and optimized distribution. Our transport fleet and logistics infrastructure are designed to ensure timely and safe movement of goods across borders, while our digital platforms provide customers with complete visibility and control over their shipments.

OUR APPROACH

At Sabeel Logistics, we believe in partnership, not just service. We work closely with our clients to understand their unique needs, design customized logistics strategies, and implement solutions that reduce cost, improve efficiency, and enhance operational agility. Our approach is proactive, collaborative, and guided by a deep commitment to excellence. We leverage technology to streamline processes, enhance tracking and reporting, and create smarter, data-driven logistics systems. Our experienced professionals bring industry expertise, problem-solving skills, and a can-do attitude to every challenge, ensuring that our clients receive dependable support at every stage of their supply chain journey.

COMMITMENT TO EXCELLENCE

We are committed to the highest standards of service, safety, and sustainability. We continuously invest in upgrading our capabilities, training our workforce, and adopting environmentally responsible practices. This commitment ensures that we not only meet but exceed the expectations of our clients, while also contributing positively to the communities and environments in which we operate.

OUR MISSION

To deliver seamless, efficient, and cost-effective logistics solutions through technology-driven processes and a client-centric approach.

OUR VISION

To be a trusted logistics partner known for excellence, innovation, and service integrity in the regional and global supply chain

CORE VALUES

Integrity: We operate with transparency and uphold the highest ethical standards

LOGISTICS

SPECIAL
LOADS

OUR USEFUL SERVICES

Air Cargo

- Solid track record in areas requiring a high level of expertise, including auto parts, dangerous places transported by air, aircraft port/leisure parts, and semiconductor manufacturing equipment.
- Strategic and optimal logistics plans according to the special needs of the cargo, and appropriate responses to urgent air freight requests.
- High-quality transportation services optimizing the speed advantage of air cargo to support the needs of our customers' businesses.

Ocean Cargo

- Provide our own consolidated cargo services to major cities in North America, Europe and Asia.
- Able to handle a wide range of cargo such as food, chemicals and heavy goods using special containers (steels, open raps, flat nets).
- Customise logistics, which is becoming more complex as a result of international multi-mode transportation and buyer's consolidation.

Inland Transportation

- Covering truck, rail and barge, our Inland Transportation Services are designed to get your goods to their destination in a shorter time—your goods will remain in the same shipping container they were packed in at their origin.
- Shipping is not just about the ocean. Often, it means meeting your goods inland and coordinating with multiple suppliers. We offer a full-service solution with a single point of contact, with more flexibility and space insight.
- Collaboration is key to mutually achieving our ambitious sustainability goals. For Al Grubson Logistics Services, this able is clear—to develop 100% green landslide transportation solutions by 2040 that will help you to decarbonize your supply chain journey further.

Equipment Rental

At Sabeel Services, we take pride in offering a wide selection of high-quality heavy equipment, including mobile cranes, crawler cranes, forklifts, scissor lifts, and man lifts and other equipment. We understand the diverse needs of our clients, and our range of equipment is designed to meet those specific requirements.

EXPERTISE & SAFETY STANDARDS

Our teams are well trained, competency assessed and monitored for performance by the Sabeel Services management, all with evidence for auditing. Incentives to work safely are in place thus ensuring professional and safe conduct. Site inspections are carried out by senior Sabeel Services management for compliance on all moves. All employees, including managers, are trained in line with the Qay / PDO Training Matrix and Institute of Logistics and Transport standards with our commitment to personal development and training very evident for all to see during the QHSE Audit. We understand the need for detailed planning, sense of urgency and the need for accuracy during logistics operations, not to mention the high cost of delays and loss of revenue when not handled effectively. My teams have the equipment, expertise and safety standards in place and follow a tested approach namely SAFETY FIRST.

DETAILED PLANNING

We plan every aspect of a transport move to determine the quickest, most cost-effective approach in moving the consignment successfully. This includes consideration to the lowest risk solution that will deliver the load rapidly and in a serviceable state plus ensure delays are minimized all tied to government and regulatory requirements such as the Oman Labor Law, Oman Traffic Law, OPAL, Vehicle Standards and SP2000. Good planning lowers moving costs!

END-TO-END MANAGEMENT

Cost of a delay is a big concern and is therefore a critical influencing factor of Sabeel Services approach to ensure "end-to-end" management from start to finish. This includes strong stakeholder communication and co-ordination activities including loading, securing, lifting, transporting, supervising and unloading.

RESPONSIVE CO-ORDINATION

Monitoring the progress is a critical component to the Sabeel Services approach which has a strong focus on outcomes and an uncompromising proactive issue identification process to avoid problems or delays before they occur.

BEST PRACTICES

Working within the industry for many years alongside some excellent companies has given Sabeel Services the experience to offer a set of best practice systems and procedures when it comes to providing transport and logistics solutions that makes implementation safer and faster. This is very evident in recent months as we assist in moving rigs in Daleel Petroleum and MEDCO in record time without incident.

FREIGHT FORWARDING

Whether it's air, sea, or land freight, we have the expertise and resources to handle your shipments with care and precision. From small packages to oversized cargo, we ensure timely delivery to destinations worldwide.

CUSTOMS CLEARANCE

Navigating the complexities of customs regulations can be daunting. Our experienced team takes the hassle out of customs clearance, ensuring compliance and swift clearance of goods for seamless transit.

WAREHOUSING AND DISTRIBUTION

With state-of-the-art warehousing facilities and advanced inventory management systems, we offer tailored solutions for storing, managing, and distributing your goods efficiently.

TRANSPORTATION SOLUTIONS

From local deliveries to long-haul transportation, our fleet of vehicles is equipped to handle diverse transportation needs. With a focus on safety and efficiency, we ensure your cargo reaches its destination securely and on time.
